<b>RESOURCES</b>	<b>Description</b>
<a href="#"><u>Teaching for Change Social Justice Book List</u></a>	More than 60 carefully selected lists of multicultural and social justice books for children, young adults, and educators. From Teaching for Change.
<a href="#"><u>Racial Equity Tools</u></a>	Racial Equity Tools is designed to support individuals and groups working to achieve racial equity. This site offers tools, research, tips, curricula and ideas for people who want to increase their own understanding and to help those working toward justice at every level – in systems, organizations, communities and the culture at large.
<a href="#"><u>Equity, Inclusion, and Anti-Bias Resources</u></a>	In an effort to create learning environments that are more diverse, inclusive, and reflective of our culturally diverse society, farm to school programs should keep in mind equity-minded best practices. From Growing Minds ASAP’s Farm to School Program.
<a href="#"><u>National Young Farmers Coalition Racial Equity Toolkit</u></a>	This toolkit is a starting point to help farmers organize around transformative learning and action. It aims to orient and incite members toward preliminary consciousness-raising and direct action. This toolkit does not detail a universally applicable pathway toward resolving pervasive racialized oppression; it is an initial resource for people who are overwhelmed by the breadth and depth of the problem and need help determining how to start dismantling racism in their communities.
<a href="#"><u>Inequities in the Food System</u></a>	This resource can help support local food system practitioners begin and continue to learn more about cycles of oppression and structural racism in our communities, and more specifically within food systems. This list is by no means exhaustive or all-encompassing, but rather serves as a starting place. If you have resources you have found helpful, please share them with us so we can include them for others to benefit from, too. From Iowa State Extension and Outreach FFED.
